Summary

Front-End Developer skilled in JavaScript, React.js, and Tailwind CSS, currently expanding my skills into backend development to become a Full Stack Developer. Eager to contribute, collaborate, and continuously learn.

Projects

News Web - GitHub

- Developed a dynamic news website using React.js and Bootstrap.
- Integrated the News API to fetch and display real-time headlines categorized by genre.
- Implemented state management and component lifecycle methods to enhance performance.
- Designed a user-friendly navigation system, improving content accessibility and optimizing user experience.

Pet Shop - GitHub | Link

- Developed a pet shop landing page using Next.js for improved performance and navigation.
- Used Tailwind CSS to design a responsive and visually appealing user interface.
- Created a user-friendly layout to highlight key features of pet ownership and encourage user interaction.

Technical Skills

- **Front-End:** JavaScript, React.js, Next.js, Tailwind CSS, Framer Motion.
- **Back-End:** Express.js, Node.js.
- **Version Control:** Git, GitHub.
- **Database:** MongoDB.
